

Real world problems...

What would you do? What would your creative friend do?

- You want to win a prize at the school science fair, but you can only build it out of things you see in this room.
- Your school wants to perform a musical, but nobody likes any of the musicals you like.
- Your school is having a competition to see who can design a toy that is fun—and also teaches a useful skill.
- Raccoons keep getting into the trash can outside your house. Your parents have placed a heavy rock on the can; the raccoons moved it. Your parents have clamped the can shut; the raccoons unclamped it.
- Kids at school are picking on a second-grader, but the second-grader doesn't want to tell the teachers.
- You want your parents to buy you a cell phone, but they keep refusing.
- You lose your parents in a big store, where you've been told you not to talk to strangers. What do you do?
